Time To Replace Your Water Meter

To ensure your water meter is reading accurately, Aquarion is required to periodically test your water meter at no charge.

If you have been notified that you're due for a meter replacement, please be sure to schedule an appointment right away. Scheduling an appointment is easy, just log into the Aquarion portal at aquarionwater.com/my-account or call our Customer Service Center at 1-800-732-9678.

Replacement takes approximately 30 minutes. Please remember, we will not request entry into your home without an appointment. Aquarion representatives always carry company-issued photo identification.

DID YOU KNOW?

You can learn more about your drinking water in our latest Water Quality Reports. Check it out at www.aquarionwater.com/wqr.

PFAS: Getting Ahead of the Headlines

When Connecticut's Department of Public Health issued new, state-wide action levels for PFAS in drinking water, the June announcement didn't catch Aquarion off-guard.

PFAS is shorthand for "per- and polyfluoroalkyl substances" – man-made chemicals used since the 1950s in variety of consumer products and other uses. They've been linked to a variety of health risks, particularly in women who are pregnant or nursing, and in infants.

Since concerns were first raised about PFAS in drinking water across the country, Aquarion has been voluntarily testing all its water sources. You can find our latest sampling results and more information about PFAS at aquarionwater.com/pfas.

Find Your Better Yard

Let's face it...your yard may no longer be pulling its weight.

Maybe it needs to catch up with your new interests, family structure or other changes. Now is a great time to find the landscape that works for you, your family and the planet.

For inspiration, we're offering a free WaterSense guide to help your yard meet its full potential. "Find Your Better Yard" can make your yard look better, function better, and become more water efficient. It's packed with ideas, illustrations, descriptions and links to get you started.

Best of all, it's easy to get – just head for aquarionwater.com/betteryard.
