

Save 32% on Upcycled Rain Barrels

Aquarion is again offering you the chance to buy discounted rain barrels to catch and store otherwise wasted runoff water. These rugged barrels fill from your downspouts and can hold 60 gallons of water for your garden and other plantings. A brass spigot and hose connection make watering easy, and a screen keeps leaves and bugs out. Normally \$125, Aquarion customers can order a rain barrel for \$85 each. You just need to reserve your barrel by April 20 for easy pickup in Hampton. Orders for Bow, Carroll, and Gilford customers can be delivered. Supplies are limited, so get all the details now at aquarionwater.com/rainbarrels.

Did You Know?

Placing mulch around shrubs and garden plants can help reduce evaporation, keeping soil moist longer and requiring less frequent watering.

Mandatory Twice-Weekly Irrigation Schedule In Effect

As moderate to severe drought conditions continue across the region, Aquarion requests that all customers in Hampton, North Hampton, Rye and Stratham adhere to this mandatory schedule to help ensure a sustainable drinking water supply.

Why focus on outdoor watering? Studies show that more than half of the water used outside is wasted due to overwatering or leaky and malfunctioning irrigation systems. For more details on this mandatory program, please visit aquarionwater.com/watering.

Mandatory, Maximum Twice-Weekly Sprinkler Irrigation Schedule

12:01 am – 10:00 am, or 6:00 pm – Midnight

No address number?

Water only on Sun. & Wed.
12:01 am – 10:00 am, or 6:00 pm – Midnight

2026 ENVIRONMENTAL CHAMPION AWARDS

Help Us Honor Our State's Environmental Champions

It's that time of year when we ask you to do a good deed for our state's environment — simply by letting us know about a person, organization or company doing a great job helping to protect or improve New Hampshire's environment.

For the 13th year, the Aquarion Environmental Champion Awards will honor outstanding, voluntary work benefiting our state's natural resources. Winners will be able to direct a \$5,000 grant from Aquarion to their favorite environmental non-profit. The student winner will take home a \$1,000 award. But first we're counting on you to nominate candidates in four categories - Adult,

Non-Profit, Business and Student. And feel free to nominate yourself or your own organization. When it comes to "Stewards of the Environment," we don't want any unsung heroes.

The nomination period closes on May 22. We'll name our 2026 Environmental Champions on June 18 at a special awards event at the Seacoast Science Center in Odiorne Point State Park. For more details or to submit a nomination, visit aquarionwater.com/awards.
