

Water Supply Update

Serving the Communities of Millbury and Oxford

Weather Trends/Outlook

Precipitation totaled 6.14 inches in September. This amount was more than the long-term average of 4.26 inches. However, the third quarter of 2022 was lower than average precipitation levels. Millbury and Oxford are currently in a Level 3 – Critical Drought.

How does this impact the conservation program?

Aquarion is directing residents and businesses to halt all non-essential outdoor water uses including irrigation of lawns via handheld watering, sprinklers, and automatic irrigation systems now through September 30. These are mandatory restrictions.
