

## Water Supply Update

### Serving the Communities of Millbury and Oxford

#### Weather Trends/Outlook

Precipitation totaled 1.52 inches in February. This amount was less than the long-term average of 3.30 inches. However, the last three and six months saw above average precipitation levels compared to their long-term averages, but it was still not enough to have an above average past twelve months of precipitation. Millbury and Oxford are currently at Drought Level 0 – Normal.
