

# Water Supply Update

*Serving the Communities of Hampton, North Hampton, Rye & Stratham*

## Weather Trends/Outlook

Precipitation this month was drier than normal; 1.3 inches compared to 3.8 inches on average. The seacoast is now in a Moderate Drought condition (see the U.S. Drought Monitor map below). Aquarion’s supply is sufficient to meet demands and there are no outside water use restrictions currently in effect.

Currently, there are no water use restrictions in place, however, customers are encouraged to follow the best practices described below. Following these practices will improve general conservation and water efficiency, and contribute to delaying or avoiding mandatory water use restrictions altogether,

### Best practices for lawn watering

We recommend that customers water their lawns only two times per week. The optimum time to run sprinklers is between sunrise and 9 a.m., and one inch of water per week is sufficient to keep grass green.

Follow the twice-weekly sprinkler irrigation schedule so no adjustments are needed if/when water use restrictions again become necessary.

See best practices below:

- Please avoid wasting water by sprinkling impermeable surfaces such as sidewalks and driveways.
- No watering is necessary if it has rained within the last 48 hours. Pay attention the weather forecast and postpone watering if rain is forecast within the next 24 hours.
- Hand watering is strongly encouraged for gardens, flowers and other ornamentals because it is a much more efficient use of water.

<b>Twice-Weekly Sprinkler Irrigation Schedule</b>	
<b>Last Digit of Your Address Number</b>	<b>Please Water Only On:</b>
0, 2, 4, 6 or 8 (even numbers)	Sunday & Wednesday 12:01 am – 10:00 am, or 6:00 pm – Midnight
1, 3, 5, 7 or 9 (odd numbers)	Saturday & Tuesday 12:01 am – 10:00 am, or 6:00 pm – Midnight
No address number	Sunday & Wednesday 12:01 am – 10:00 am, or 6:00 pm – Midnight
