| Oct. 2022 | 3 | J | J | J | ND | ND | ND | 3 | 3 | 20 | | |

Footnotes:

*Compliance with the MCL is based on the quarterly average of all samples collected during the calendar quarter.

Definitions:

J - The result reported from the laboratory is below Minimum Reporting Level of 2 ppt, but greater than the Method Detection Limit. Per MassDEP, this value is not included in the compliance Total for PFAS6.

MCL - Maximum Contaminant Level

ND - Not Detected

POE - point of entry. Sample collected after treatment as water enters the distribution system, before the first customer.
